

Track, Monitor and Manage All Your Mobile Devices. It's Mobility Simplified.

OVERVIEW

AirWatch lets you track, monitor and manage your entire fleet of iPhones, along with all other mobile devices deployed across your enterprise.

Web-based, functionally robust and easy-to-use, this enterprise-wide solution provides you with a single, integrated view of all your organization's iPhones, resulting in reduced IT support costs, increased IT efficiencies and an improved support experience for corporate iPhone users. AirWatch really is mobility simplified.

WHY AIRWATCH IS DIFFERENT

- ▶ Web-based with multi-tenant architecture
- ▶ Highly scalable solution for small businesses and global enterprises
- ▶ Unparalleled flexibility with three delivery options available:
 - Software as a Service (SaaS) – Dedicated software appliance – Deployed behind your corporate firewall
- ▶ Guaranteed SOX, PCI and HIPAA Compliance
- ▶ 24 / 7 / 365 In-house support center
- ▶ 20 years of proven leadership in wireless and mobility solutions

AIRWATCH'S INDUSTRY-LEADING FUNCTIONALITY INCLUDES:

- ▶ Centralized Deployments
- ▶ Asset Management
- ▶ Over-the-Air Enrollments
- ▶ Over-the-Air Configurations
- ▶ Device Security
- ▶ Security by Location, Role and Function
- ▶ Policy Enforcement
- ▶ GPS Tracking and Bread Crumb Mapping
- ▶ Device Grouping and Bulk Management
- ▶ Intelligent Notification and Reporting
- ▶ Help Desk Support Capabilities

AIRWATCH BENEFITS

- ▶ Gain comprehensive, integrated view into all your mobile devices
- ▶ Increase mobile worker productivity
- ▶ Improve the overall support experience for your corporate iPhone users
- ▶ Streamline the management of all your mobile assets
- ▶ Enable and enforce security and compliance policies
- ▶ Increase IT and help desk efficiencies and productivity
- ▶ Reduce cost and effort of iPhone deployments
- ▶ Mitigate legal and business risk associated with mobility
- ▶ Improve communications and reduce help desk response times
