

Your housing system in the palm of your hand

Orchard's fully integrated Housing Management system is complemented by a mobile working solution, developed in partnership with South View Solutions which provides mobile workers with essential property and tenant data whilst on the move, empowering them to have access to information and update systems with real time information.

OnSite is the only mobile solution available on the market that was originally designed to work with Orchard's Housing Management systems.

Your housing system is key to the decisions you make in the office every day - but what about when you are out of the office?

This solution is extremely cost effective, secure and scalable, providing a flexible method of communication between the entire mobile workforce and the organisation

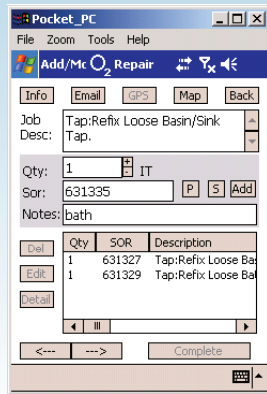

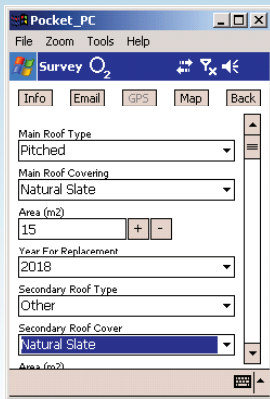

Orchard's mobile working solution guides mobile workers through a whole range of housing services.

Orchard's mobile working solution provides fast, reliable and secure access to information using the latest mobile technology.

To learn more and see how the mobile working solution could benefit your organisation, contact your Strategic Relationship Manager.

Email: info@orchard-systems.co.uk

Benefits of mobile working include:

- ▶ Efficient data collection whilst on site
- ▶ Reduced paperwork
- ▶ Reduced data input
- ▶ Immediate access to all tenant and property information
- ▶ Improved service delivery
- ▶ Informed decision making
- ▶ Lone worker health and safety
